## **CRAFTSMAN COLLECTION ENTRY DOOR SYSTEMS TRUE TO ARCHITECTURAL STYLE WITH CLEAN LINES, RICH FIR GRAIN**

**MOSINEE, Wis.** — The recently introduced Craftsman Collection of fiberglass entry door systems from Peachtree® Doors and Windows is the perfect complement to Mission and Craftsman styles of architecture, with its simple, clean lines and rich fir-grain texture. In addition to the Craftsman Collection, Peachtree's new entry door line includes the Rustic Collection, the Mahogany Collection, and the Oak and Smooth Collection of fiberglass doors. Steel and fire-rated doors are also practical options for builders and homeowners.

The collection is available in 6'8" heights in ¼ lite panels with Symphony decorative glass or clear beveled glass. Single and double sidelites and rectangular transoms can also be ordered with matching decorative glass. Optional dentil shelves grained to match the door panel add a unique and authentic architectural detail. Panels and matching sidelites come with a unique flush-glazed system.

"The Craftsman Collection is true to the arts-and-crafts and prairie periods," said Jeff Kibler, brand manager for Peachtree Doors and Windows. "Thanks to advanced graining technology, these fiberglass doors have an incredibly realistic fir-grain finish, providing an authentic appearance with greater energy efficiency than wood doors."

The Craftsman Collection is available in 10 durable enamel factory finishes: Classic White, Ivory, Pebble Tan, Obsidian, Dark Bronze, Brick Red, Forest Green, Sierra Brown, Indigo and 300 Series Tan. Factory-stain finishes of Moorish Teak, Rose Wood, Dark Mahogany, Natural Teak, Provincial and Golden Oak can bring out the wood-grain texture of the panels. Exterior frames are available in primed wood, stain-grade pine, aluminum cladding in nine standard colors or 46 designer colors, vinyl cladding in white or tan, or white fiberglass. Primed or stain-grade interior frames can be prefinished in white or stained to match the door panel.

### **Foundational Components**

All of the new entry door systems are available with Peachtree's continuous head, sill and frame system. The single frame system is easier to install and reduces susceptibility to air and water infiltration. Part of the single frame system, Peachtree's exclusive composite sill contains no wood, guaranteeing years of trouble-free use and no potential of rot. It is available in fixed, adjustable, high performance and ADA-compliant styles.

The polyurethane core of all Peachtree entry doors delivers six times the energy efficiency of a wood door and also provides greater durability with less maintenance. The doors are completely CFC-free to help protect the earth's ozone layer.

### **Hardware**

Every Peachtree entry door frame is equipped with steel strike-plate reinforcements to guard against forced entry. For added security a stainless steel multi-point locking system is available. Multi-point handle sets are available in either a Classic Curve or Contemporary style. All are available in seven lush finishes: Polished Brass, Antique Brass, Oil-Rubbed, Brushed Nickel, Polished Chrome, Brushed Chrome and White. In addition to durable standard hinges, Peachtree entry doors are available with mortised adjustable hinges, spring-loaded hinges and commercial ball bearing hinges.

### **About Peachtree**

Peachtree Doors and Windows has been manufacturing millwork products since 1959. Headquartered in Mosinee, Wis., Peachtree manufactures and markets wood windows and patio doors, and steel and fiberglass patio and entry door systems. Products are sold nationwide through home improvement retailers and building materials dealers. For more information about Peachtree's complete product line, visit [peachtreedoor.com](http://peachtreedoor.com) or call 800.732.2499.
