PEACHTREE INTRODUCES THE 300 SERIES OF VINYL CLAD WINDOWS

Norcross, Ga. — Peachtree® Doors and Windows, dedicated to providing consumers with high quality doors and windows offering easy living features, recently introduced the new 300 Series window line. Boasting several new designs, benefits and sizes, the 300 Series is one more demonstration of the rededication of “The New Peachtree.” This Series will be available during the first quarter of 2003.

The new Series contains double hung, casement, awning and fixed windows with common features such as a dent-resistant extruded vinyl exterior, double weather stripping, one-piece welded jamb construction, white cellular PVC or clear-finished pine interior and profiled glazing. The 300 Series also includes new direct set picture, transoms and bays/bows styles. Customers can choose from tan or brass hardware and a white or tan exterior finish.

“We’re excited about the 300 Series because homeowners can mix and match products within the Series to create a consistent window package throughout their home,” said Chris Brown, Peachtree brand manager. “The 300 Series brings consumers the quality they expect, affordably. The 300 Series will provide homeowners with a great amount of satisfaction.”

The 300 Series also comes in a number of direct set shapes: Half and quarter rounds, modified half rounds, modified eyebrows, picture, transoms and stand alones.

(more)

The 300 Series also features ¾" warm-edge glass, split-arm roto operator (casement), beveled frame and sash, factory-applied brickmould or factory-applied "J" channel.

The 300 Series is easy to install, with an integral 1-½ " extruded nail fin, which also provides added strength. Strong locking features, such as the recessed cam lock on the double hung and the tandem locking system on the casement and awning provide added security. The double hung windows feature an easy-tilt sash with flush mounted tilt latches that allow for easy cleaning.

Peachtree Doors & Windows has been manufacturing millwork products since 1959. Based in Norcross, Ga., the company has facilities in Gainesville, Ga. and Huntington, W. Va. Peachtree manufactures and distributes wood and composite windows, fiberglass and steel entry doors, and patio doors that offer easy living features. Products are sold nationwide through building materials dealers. For more information about Peachtree's complete product line, visit www.peachtreedor.com or call 800.732.2499.
