PEACHTREE 500 SERIES OFFERS ENDURING BEAUTY AND PRACTICALITY

GAINESVILLE, Ga. - Peachtree® Doors & Windows 500 Series windows and patio doors are a practical choice for consumers who want beauty and performance. With a choice of eight popular exterior colors, upgraded glass and warm wood interiors, the 500 Series delivers many easy-living features which homeowners have come to expect from Peachtree.

The extruded aluminum clad exteriors are just one of the easy-living features of the 500 Series. The exteriors are dent resistant and virtually maintenance free. Choose from eight clad colors: Classic White, Ivory, Pebble Tan, Forest Green, Dark Bronze, Obsidian, Brick Red and Sierra Brown.

The interiors are made from a warm natural pine that is ready to be sealed, stained or painted. Or, homeowners may choose a pre-finished white interior. Peachtree's multi-step finishing process includes a primer undercoat and two layers of finished white latex paint. The interior finish is sprayed on, providing an even, brush-free appearance. All SDL bar profiles are painted prior to being applied to the window, resulting in clean coverage around the glass. In addition to the pre-finished option, the 500 Series products can be ordered with a single coat of a water-based latex primer.

“Homeowners can trust that the 500 Series windows and patio doors are high quality, and won’t cause maintenance headaches. They can practically install them and forget about them,” said Jeff Kibler, Peachtree brand manager. “The 500 Series is loaded with easy-living features that make them convenient and reliable.”

The 500 Series contains double hung, casement, awning, fixed windows, and hinged, French and sliding patio doors, along with transom and specialty shaped windows. The double hung units are available in standard designs, or Cottage and Oriel designs, which offer smaller and larger top sashes, respectively, for a unique look.

The 500 Series is easy to install, with an integral 1-1/2" extruded nail fin, which also provides added strength. Strong locking features, such as the recessed cam lock on the double hung, the tandem locking system on the casement, and the multi-point locking system on the patio doors, provide added security.

The 500 Series patio doors are available in French and contemporary style sliding, and center-hinged and French swing-in and swing-out designs. Sliding units are available up to four panels wide for more expansive views. All 500 Series patio doors are available in 6'8", 6'11" and 8'0" heights. Choose from polished brass, antique brass, polished chrome, bronze, brushed nickel, brushed chrome, oil-rubbed brass or white hardware. Four adjustable hinges on the hinged patio doors ensure the doors operate effortlessly for years.

Peachtree 500 Series products are available with EasyCare™ Glass, a high-performance Low-E² insulated glass with an exterior coating that resists dirt and water, keeping windows cleaner longer. The standard 3/4" warm edge spacer system delivers excellent thermal performance adding to the energy efficiency of the products.

Homeowners can enhance the look of their windows and patio doors by adding grilles or complementary transoms and direct set windows in a range of unique shapes

(more)

including elliptical, radius and geometric shapes. Peachtree offers simulated divided lites (SDL), grilles-between-the-glass (GBG), and interior full surround wood grilles in standard or custom grille patterns. Simulated v-groove glass also is available for a clean, classic look.

Based in Gainesville, Ga., Peachtree Doors & Windows has been manufacturing millwork products since 1959. Peachtree manufactures and distributes aluminum clad, vinyl clad, wood and vinyl windows and patio doors, fiberglass and steel entry doors; and fiberglass, steel and wood patio doors that offer consumers easy living features. Products are sold nationwide through building materials dealers. For more information about Peachtree's complete product line, visit www.peachtreedoor.com or call 800.732.2499.
