PEACHTREE OFFERS EXTENSIVE SELECTION OF PATIO DOORS TO PLEASE HOMEOWNERS

Variety of Styles Available in Fiberglass, Steel, Aluminum Clad, Vinyl Clad and Vinyl

GAINESVILLE, Ga. – Peachtree® Doors & Windows continues to lead the industry by offering beautiful, high quality patio doors in fiberglass, steel, aluminum clad, vinyl clad and vinyl with many easy-living features. Combined with a Peachtree entry door system and complementary windows, a Peachtree patio door conveniently provides a whole house package for homeowners and builders with one-stop shopping.

The 700 Series and 500 Series Aluminum Clad Patio Doors

The 700 Series and 500 Series of aluminum clad patio doors includes center-hinged and French-style swing-in and swing-out designs, and wide-stile French and traditional narrow-stile sliding patio doors. The 500 Series patio doors, available in 6'8", 6'11" and 8'0", feature warm pine interiors, which are ready to stain, seal or paint to match a home's décor. The 700 Series patio doors are available in custom sizes with a choice of standard pine or five hardwood interiors.

Extruded aluminum clad exteriors are durable, low maintenance and resist denting, fading and chipping. Cladding is available in eight standard pre-finished colors: Classic White, Ivory, Pebble Tan, Forest Green, Obsidian, Dark Bronze, Brick Red and

(more)

Sierra Brown. Peachtree also offers optional exterior aluminum clad trim and brickmould for a traditional wood appearance with less maintenance than wood trim.

The Citadel Fiberglass Patio Door

Whether they choose a Citadel patio door in a sliding, or French or center-hinged swinging design, homeowners will appreciate the Citadel's beauty and elegance and rest easy knowing their door is one of the most secure and energy efficient available.

Virtually maintenance free, the Citadel has an extruded aluminum clad frame and 1-3/4" thick fiberglass panels filled with foamed-in polyurethane insulation. It is available in 6'8" or 8'0" heights. The exterior can be ordered pre-finished in Classic White, Ivory, Pebble Tan, Forest Green, Dark Bronze, Obsidian or Sierra Brown. The interior is primed, ready for staining, to bring out the richness and texture of the oak grain finish. Fiberglass stain kits are available in six different colors to match any room. As an alternative, homeowners can paint the interior to a color of their liking.

Common Features

The 700 Series, 500 Series and Citadel patio doors come with tempered 3/4" EasyCare™ Low E² argon-gas-filled glass, a high-performance insulated glass with an exterior coating that resists dirt and water, keeping windows and doors cleaner longer. Glass is available in clear, gray or bronze tint. A warm-edge spacer system delivers excellent thermal performance while reducing stress cracks and seal failures.

A variety of grille styles including: Grilles-between-the-glass (GBG), simulated divided lites (SDL), and an interior full surround wood grille are available in standard

(more)

Colonial and specialty grille patterns. Round top, rectangular or specialty shape transoms finish off a door in classic style.

The hinged patio doors come standard with four adjustable hinges to ensure the door continues to operate perfectly over time; a multi-point, stainless steel locking system provides added security. Homeowners can choose from multiple choices in hardware finishes, including; brass, polished chrome, brushed chrome, brushed nickel, white or oil-rubbed bronze.

The sliding models have two reinforced lock points and a standard pull handle in brass, polished brass, antique brass, polished chrome, brushed chrome, oil rubbed bronze or white. The 500 Series and 700 Series sliding models have a foot bolt to provide security even when the door is slightly open.

Sills have superior drainage systems and are thermally broken. The bottom sweep and adjustable oak threshold on the swinger and French models keep the units weather tight.

The Prado Steel Patio Door

The Prado steel patio door is available in French and center-hinged in-swing and out-swing, and sliding models. All are sized for replacement or new construction installations. An energy-efficient polyurethane core is surrounded by heavy gauge galvanized steel panels that resist cracking, splitting or warping. The doors come primed and ready to paint; the duo-clad option offers a white pre-finished exterior and primed interior. The Prado is available in single, two panel and three panel widths and 6'8" heights.

(more)

A 3/4" insulated glass is standard on the Prado patio door. The Prado patio door is Energy Star compliant with Low E² glass. Thermally-broken panels and sills prevent heat loss and frosting in cold weather.

The Prado patio door can be customized with grilles-between-the-glass in solid colors of Classic White, Ivory or Pebble Tan or two-tone grilles with White interiors and Ivory, Pebble Tan, Forest Green or Sierra Brown on the exterior. Hardware is available in brass or antique brass for the hinged models; the slider is available with brass or white hardware.

Symmetry from Peachtree

The Symmetry product line includes both narrow-stile and French wide-stile sliding patio doors. The patio doors have a 4-3/4" extruded multi-chamber main frame with fusion-welded, one-piece platform design that ensures structural stability and long life. Adjustable dual tandem steel rollers operate smoothly and quietly.

Based in Gainesville, Ga., Peachtree Doors & Windows has been manufacturing millwork products since 1959. Peachtree manufactures and distributes aluminum clad and vinyl clad windows, and fiberglass and steel entry doors and patio doors that offer easy living features. Products are sold nationwide through building material dealers. For more information about Peachtree's complete product line, visit www.peachtreedoor.com or call 800.732.2499.
